

PLEASE DISTRIBUTE TO TRAVEL BRANCH SUPERVISORS AND EXAMINERS

Volume XIII

Number 11

November 2011

Windows 7 SP1

IATS will currently not work under WINDOWS7 if the first service pack (SP1) has been installed. Version 6.16 of the IATS software, which will be out later in the year, will include an installer that will work with WIN7/SP1. If you have already installed WIN7/SP1 and cannot wait for the new version, you must uninstall SP1 for IATS to work. Call or email the IATS technical team (DSN: 699-7718/COMM 317-212-7718; email: IATS-HELP-DESK@dfas.mil) if you have any questions.

Request Access to Secure FTP

Nancy Bernard

Navy IATS users requesting access to the DFAS CL CORP 5 server to Secure FTP files for ADS to process, need to have boxes 22-25 of the DD Form 2875 completed by their TASO. Box 21 which is the Functional Owner is left blank. Forward completed DD Form 2875 to ccl-dfas-ftp@dfas.mil DFAS-CL POC: Ms. Nancy Bernard nancy.bernard@dfas.mil

Invalid SSN's

The Social Security Administration (SSA) has mandated that certain social security numbers (SSN) are invalid. The list of SSN's that the SSA has mandated as being invalid is as follows:

- a) SSN's with all zeros in any of the 3 sections of the SSN (e.g. 000-98-754, 754-00 -9712, 987-65-0000)
- b) SSN's with all 6's in the first section of the SSN (e.g. 666-98-7654)
- c) SSN 078-05-1120 ("Wallet SSN")
- d) SSN 111-11-1111
- e) SSN 123-45-6789
- f) SSN 219-09-9999
- g) All SSN's from sequence number 987-65-4320 through 987-65-4329
- h) SSN 999-99-9999

It is highly recommended that you cease and desist immediately from using these invalid SSN's. If you would like to know if your site is currently using any of these invalid SSN's, items c) through h) can be manually queried using the history module in IATS. If you would like a query for items a) and b), please contact the IATS Help Desk by email (IATS-HELP-DESK@DFAS.MIL), or via phone at 317-212-7718 or DSN 699-7718 for the query and assistance in running the query. It is anticipated at this time that IATS version 6.17 will address disallowing these SSN's to be used.

Version 6.16 deployed on September 1 and contains among other things the following features:

- Change HHT Computation Method to Standard CONUS Rate
- Financial Screen now Visible in Audit View
- Default Retirement Code Field to Blank
- Add Notice of Receipt to Email for IATS
- New Form 941
- Deny User Ability to Process Own Claim
