**Number 10**

**October 2014**

## ***Ways To Improve IATS Performance***

### **Adjust the Cache in the SQL Service:**

1. Remote into the server or go to the desktop.
2. Open Services.
3. **Scroll down** to “SQL Anywhere 12 – Winiats”.
4. **Right-click** and **click** on **Stop**.
5. **Open** Windows Explorer.
6. **Browse** to your **IATS DB** (probably c:\program files (x86)\windowsiats\database or e:\program files (x86)\windowsiats\database).
7. **Calculate** 10-15 percent of your DB size and **save it**.
8. **Browse** to the **root of C:**.
9. **Right-click** on **Createsvc.bat**.
10. **Click** on **Edit**.
11. **Adjust** the -c xxm or -c xxg to -c and the number saved in step 7.
12. **Click** on **File** and **Exit**.
13. **Double-click** the **createsvc.bat**.
14. **Press <Y>**es at the prompt to overwrite the existing service in the command prompt box.
15. When the command prompt closes, **Close** Windows Explorer.
16. **Maximize** Services.
17. **Scroll down** to “SQL Anywhere 12 – Winiats”.
18. **Right-click** and **click** on **Start**.
19. **Close** Services.

***\*\*Navy IATS Users – some very important information is available on the monthly CD rates update. Please refer to the Instructions newsletter for this information \*\****
