

PLEASE DISTRIBUTE TO TRAVEL BRANCH SUPERVISORS AND EXAMINERS

Volume XXI

Number 2

February 2019

CURRENT/FUTURE RELEASES

Current IATS Release is 7.0.1 for Army and COE, Navy and USMC are still using 7.0.

IATS 7.1.0 was mailed on January 28th, 2019. To install the 7.1.0 software, follow the directions in the 710SVD.PDF file found in the root folder on the accompanying CD. If you have questions, contact the Help Desk.

NOTE: DTOD 32 does not support XP machines. Do not remove your DTOD 28 on your XP machines.

Commercial: (317) 212-7718

DSN: 699-7718

***** End of Life for IATS 6.x *****

All versions of IATS 6.x will no longer be supported after January 31, 2019. The IATS 7.x generation was released in late January 2018, so it's no longer feasible to support both generations of IATS. IATS 6.x was written in Visual Basic 6 (VB6) which is no longer supported, so it's making the IATS 6.x more difficult to support. Please upgrade to IATS 7.x as soon as possible. If you need the IATS 7.x software or assistance upgrading, please contact the IATS Help Desk at 317-212-7718 or via email at dfas.indianapolis-in.ztd.other.iats-help-desk@mail.mil. Thank you for your cooperation and understanding.

***** Screen Resolution *****

IATS 7.1 is due to be released in early 2019. The screens have been enlarged, so users' PCs will be required to have a minimum screen resolution of 1920 x 1080 to see all screens.
